Casual collection SS19

Inspiration

On a journey through one of nature's most beautiful elements: the air.
Float above the water like a dragonfly or fly between beautiful flowers like a hummingbird.
Why not going on a trip to Aruba, Mali or Argentina?
Discover our new summer collection with beautiful prints and new items!

Materials

For our brand new collection, we were again inspired by the main purpose of our brand: Going outside, no matter the weather. Therefore, we wanted the materials to be soft, comfortable and breathable. As a result, we developed a casual collection in cotton, with everyday items for little rascals. All of the items are Oëko-tex certified, as always.

Let's go on a sunny trip through our new casual collection!
